Professional Summary

I am an organized and reliable Front End Developer, skilled in managing multiple priorities. I have a strong programming foundation from teaching and studying students. With project experience, I excel in React and React Native. Seeking an entry-level position to contribute to team success in achieving company goals.

Work History

1. Front End Developer

Word Fibre Limited, (Remote)

- Worked on React projects and began transitioning to React Native.
- Engaged stakeholders to validate creative proposals and design best practices.
- Used HTML, CSS, and JavaScript to code features for mobile and desktop platforms.
- Tested web-based product functionality and delivered iterations to customers.
- Made recommendations for new technology integration based on suitability and alignment to business goals.
- Followed SDLC best practices within the Agile environment to produce rapid iterations for clients.
- Teamed on user-centric design strategy in translation of UX and business requirements into coded solutions.
- Produced websites compatible with multiple browsers.

2. Freelance Projects

- I have gained experience working with Cypress as an Automation Tester, assisting a friend in completing their freelance project.
- I have also contributed to game development by working on Unity and writing scripts to aid in building a game.
